

# Product Specification

**Product Name:** YSAMBER® K

**Vigon Code:** 502547

**CAS Number:** 154171-76-3

**FEMA Number:** N/A

## Characteristic:

Assay li

Assay (sum Of Isomers)%

Gas Chromatograph

Odor

Refractive Index (@20c)

Relative Density (d20/4)

Color/appearance

## Specification:

90.00                      100.00

95.00                      100.00

PASSES TEST

CHARACTERISTIC ODOR.

1.4990                      1.5090

1.0440                      1.0540

COLORLESS TO PALE YELLOW LIQUID TO SOLID PRODUCT.

## Additional Product Information:

**Flash Point:** >200 °F

**Shelf Life:** 36 Months

**Storage Conditions:** Stable when stored in its original package, tightly sealed in a cool (46-90°F) and dry location out of direct heat and light.  
If product is congealed, heat gently, melt completely, and mix before use.

**Effective Date:** December 17, 2021

Printed Date: July 16, 2024

**Vigon International, LLC.**

## 1. IDENTIFICATION

**Product Description:** YSAMBER® K  
**CAS #** 154171-76-3  
**Other means of identification**  
**Vigon Item #** 502547  
**Recommended use** Concentrated aromatic ingredient which may be used fragrance compounds according to legal and IFRA guidelines.  
**Recommended restrictions** For Manufacturing Use Only

|                                                  |                                                                                                                              |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Hazard statement</b>                          | May be harmful if swallowed or in contact with skin. Toxic to aquatic life. Toxic to aquatic life with long lasting effects. |
| <b>Precautionary statement</b>                   |                                                                                                                              |
| <b>Prevention</b>                                | Avoid release to the environment.                                                                                            |
| <b>Response</b>                                  | Call a POISON CENTER/doctor if you feel unwell. Collect spillage.                                                            |
| <b>Storage</b>                                   | Store away from incompatible materials.                                                                                      |
| <b>Disposal</b>                                  | Dispose of contents/container in accordance with local/regional/national/international regulations.                          |
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.                                                                                                                  |
| <b>Supplemental information</b>                  | 100% of the substance consists of component(s) of unknown acute inhalation toxicity.                                         |

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Substances

| Chemical name                                                                                     | Common name and synonyms                                                                              | CAS number  | %   |
|---------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|-------------|-----|
| 2',2',8',8'-tetramethylspiro<br>[1,3-dioxolane-2,10'-<br>octahydro-1H-2,4a-<br>methanonaphthalene | Spiro[1,3-dioxolane-2,8'(5'H)-<br>[2H-2,4a]methanonaphthalene],<br>hexahydro-1',1',5',5'-tetramethyl- | 154171-76-3 | 100 |

### 4. FIRST-AID MEASURES

|                                                                               |                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                                                             | If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.                                        |
| <b>Skin contact</b>                                                           | Take off immediately all contaminated clothing. Get medical attention if irritation develops and persists. Wash skin thoroughly with soap and water for several minutes.                                                                              |
| <b>Eye contact</b>                                                            | Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.                                                                      |
| <b>Ingestion</b>                                                              | Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs. |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Direct contact with eyes may cause temporary irritation.                                                                                                                                                                                              |
| <b>Indication of immediate medical attention and special treatment needed</b> | Not available.                                                                                                                                                                                                                                        |
| <b>General information</b>                                                    | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.                                                                             |

### 5. FIRE-FIGHTING MEASURES

|                                                   |                                                                    |
|---------------------------------------------------|--------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>               | Water spray, fog, CO2, dry chemical, or alcohol resistant foam.    |
| <b>Unsuitable extinguishing media</b>             | Do not use a solid water stream as it may scatter and spread fire. |
| <b>Specific hazards arising from the chemical</b> | Fire may produce irritating, corrosive and/or toxic gases.         |

## SAFETY DATA SHEET

502547 YSAMBER® K

Revision Date: 11-12-2019

Page 3 of 10

Version # 02

Print Date: 11-12-2019

**Special protective equipment and precautions for firefighters**

Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection. Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.

**Fire fighting equipment/instructions**

In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.

**Specific methods**

Use water spray to cool unopened containers.

**General fire hazards**

Static charges generated by emptying package in or near flammable vapor may cause flash fire.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

Eliminate all sources of ignition. Avoid contact with skin or inhalation of spillage, dust or vapor. Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them.

**Methods and materials for containment and cleaning up**

Collect and dispose of spillage as indicated in section 13 of the SDS.

Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps.

The product is immiscible with water and will spread on the water surface.

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.

Never return spills in original containers for re-use. This material and its container must be disposed of as hazardous waste. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions**

Retain and dispose of contaminated wash water. Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water.

### 7. HANDLING AND STORAGE

**Precautions for safe handling**

Do not handle or store near an open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid breathing vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wash thoroughly after handling.

**Conditions for safe storage, including any incompatibilities**

Keep container closed. Handle containers with care. Open slowly in order to control possible pressure release. Store in a cool, well-ventilated area.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Occupational exposure limits**

This substance has no PEL, TLV, or other recommended exposure limit.

| <b>Eye/face protection</b>                                                   | Wear safety glasses with side shields (or goggles).                                                                                                                                                                                                  |
| <b>Skin protection</b>                                                       |                                                                                                                                                                                                                                                      |
| <b>Hand protection</b>                                                       | Chemical resistant gloves.                                                                                                                                                                                                                           |
| <b>Other</b>                                                                 | Wear suitable protective clothing.                                                                                                                                                                                                                   |
| <b>Respiratory protection</b>                                                | Respiratory protection not required. If ventilation is insufficient, suitable respiratory protection must be provided.                                                                                                                               |
| <b>Thermal hazards</b>                                                       | Wear appropriate thermal protective clothing, when necessary.                                                                                                                                                                                        |
| <b>General hygiene considerations</b>                                        | Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |

### 9. PHYSICAL AND CHEMICAL PROPERTIES

## 10. STABILITY AND REACTIVITY

|                                    |                                                                                               |
|------------------------------------|-----------------------------------------------------------------------------------------------|
| Reactivity                         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| Chemical stability                 | Material is stable under normal conditions.                                                   |
| Possibility of hazardous reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| Incompatible materials             | Strong oxidizing agents.                                                                      |
| Hazardous decomposition products   | No hazardous decomposition products if stored and handled as indicated.                       |

## 11. TOXICOLOGICAL INFORMATION

### Information on likely routes of exposure

|              |                                              |
|--------------|----------------------------------------------|
| Inhalation   | Knowledge about health hazard is incomplete. |
| Skin contact | May be harmful in contact with skin.         |
| Eye contact  | Knowledge about health hazard is incomplete. |
| Ingestion    | May be harmful if swallowed.                 |

Symptoms related to the physical, chemical and toxicological characteristics  
Direct contact with eyes may cause temporary irritation.

### Information on toxicological effects

Acute toxicity  
May be harmful in contact with skin. May be harmful if swallowed.

| Product | Species | Test Results |
|---------|---------|--------------|
|---------|---------|--------------|

2',2',8',8'-tetramethylspiro [1,3-dioxolane-2,10'- octahydro-1H-2,4a- methanonaphthalene (CAS 154171-76-3)

#### Acute

##### Dermal

|      |        |              |
|------|--------|--------------|
| LD50 | Rabbit | > 2000 mg/kg |
|------|--------|--------------|

##### Oral

|      |     |              |
|------|-----|--------------|
| LD50 | Rat | > 2000 mg/kg |
|------|-----|--------------|

Skin corrosion/irritation  
Due to partial or complete lack of data the classification is not possible.

| Other adverse effects         |         | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

## 13. DISPOSAL CONSIDERATIONS

|                                       |                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal instructions                 | Do not discharge into drains, water courses or onto the ground. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Local disposal regulations            | Dispose in accordance with all applicable regulations.                                                                                                                                                                                                                                                              |
| Hazardous waste code                  | Not established.                                                                                                                                                                                                                                                                                                    |
| Waste from residues / unused products | Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).                                                                                                                                                     |
| Contaminated packaging                | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.                                                                                                          |

Date of Issue: July 16, 2024

# Stabilizer Statement

---

**Product Name: YSAMBER® K**

**Vigon Code: 502547**

Vigon International, LLC. declares that, to the best of our knowledge that the product listed above has not been treated with BHT, BHA, Tocopherols or any other stabilizer.

Vigon International, LLC. may terminate this statement at any time upon written notice in which this statement shall be null and void as to any material supplied after termination of the statement.

Sincerely,

Vigon Regulatory Department  
regulatory@vigon.com  
Date of Issue: July 16, 2024

# Continuing Product Guarantee

---

**Product Name: YSAMBER® K**

**Vigon Code: 502547**

In accordance with the regulations promulgated under the Federal Food, Drug, and Cosmetic Act, Vigon International, LLC. hereby provides continuing guarantee for the item listed above.

The article(s) comprising each shipment or other delivery hereafter made by Vigon International, LLC. is hereby guaranteed, as of the date of shipment or delivery, to be, on such date, not adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act, and not an article which may not, under the provisions of section 404, 505, or 512 of the act, be introduced into interstate commerce.

The guarantee herein given shall be a continuing guarantee and shall remain in full force and effect until revoked in writing by the undersigned. This guarantee shall not limit or preclude the operation and effect of any and all provisions of any agreement(s) under which the articles covered by this guarantee are sold, and the provisions of such agreement(s) shall govern in the event of any conflict or inconsistency herewith. Supplier's liability for breach of this guarantee shall in no event exceed the value of such of the articles of the supplier shipped to or on the order of Purchaser hereunder as may fail to comply with this guarantee.

This guarantee shall be void and of no effect in any instance where the particular use by Purchaser of any article to which this guarantee would otherwise apply is a use which is not in accordance with the requirements of the Federal Food, Drug and Cosmetic Act. Any and all prior guarantees and/or indemnity agreements heretofore given by supplier, are hereby revoked.

Sincerely,

Vigon Regulatory Department  
regulatory@vigon.com

# Nanomaterials

---

**Product Name: YSAMBER® K**

**Vigon Code: 502547**

We hereby confirm, to the best of our knowledge, that the above referenced product has not been formulated with engineered nanomaterials.

"Engineered nanomaterial" means any intentionally produced material that has one or more dimensions of the order of 100 nm or less or that is composed of discrete functional parts, either internally or at the surface, many of which have one or more dimensions of the order of 100 nm or less, including structures, agglomerates or aggregates, which may have a size above the order of 100nm but retain properties that are characteristic of the nanoscale.

Sincerely,

Vigon Regulatory Department

# Transmissible Spongiform Encephalopathy (TSE) and Bovine Spongiform Encephalopathy (BSE) Statement

**Product Name:** YSAMBER® K

**Vigon Code:** 502547

Vigon International, LLC. products are manufactured wholly from synthetic, natural or manufactured materials and do not contain any raw materials produced from or substances derived of animal origin. Moreover, these products do not contain, and are not derived from, specified risk material as defined in Commission Decision 97/534/EC or mechanically recovered meat obtained from the vertebral column of bovine, ovine or caprine animals.

The manufacturing process does not use any ingredient of animal origin nor do our products come in contact with animal products during storage and transportation.

We further declare that our products are Dioxin Free.

Therefore, to the best of our knowledge the product listed above are free from Transmissible Spongiform Encephalopathy (TSE) and Bovine Spongiform Encephalopathy (BSE).

Vigon International, LLC. may terminate this statement at any time upon written notice, in which this statement shall be null and void as to any material supplied after termination of the statement.

Sincerely,

Vigon Regulatory Department

# IFRA

---

**Product Name: YSAMBER® K**

**Vigon Code: 502547**

- Is not restricted as such according to the Standards of the International Fragrance Association (IFRA) (up to and including the 51st amendment)
- Bears no IFRA specifications

The IFRA Standards regarding use restriction are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

It is the ultimate responsibility of our customer to ensure the safety of the final product by further testing if need be.

Sincerely,

Vigon Regulatory Department
